*African Mango Weight Management*

WATER ENCHANCER TABLETS

Create a refreshing weight management water in seconds! B-SLIM African Mango Water Enhancer hydration tablets are powered by two potent, proven natural ingredients: African Mango for weight management and Ashwagandha for stress relief.

African Mango (*Irvingia gabonensis*) seed extract has long been used to provide effective weight management support. It has also been found to be effective at helping reduce hunger and body fat. B-SLIM contains a patented, clinically proven *Irvingia* seed extract. The ingredient has substantiated claims for appetite control, satiety (feeling of fullness), weight management, and metabolic wellness.

Ashwagandha is an ancient herb known for its calming, adaptogenic properties. Studies have shown it can help increase resistance to stress and fatigue while promoting vigor, vitality, and well-being. B-SLIM contains Sensoril® – the most potent Ashwagandha on the market. In clinical trials, it demonstrated its ability to help shield the body against the negative effects of stress by balancing and harmonizing the body's systems.
