O2 Drops®

All-Natural and Proven Effective

OXYGEN HEALTH SUPPLEMENT

Prime your body for peak performance! O2 Drops® all-natural nutritional supplement is formulated to help boost oxygen levels in the body for better health and performance. It contains Activated Stabilized Oxygen (ASO®) and Lyophilic Third State Minerals (LTSM®), which renew and fortify the body at the cellular level. This proprietary liquid formula combines the proven benefits of bioavailable oxygen with vital trace minerals, which may boost overall health, energy, and mental clarity; enhance physical performance; improve recovery from physical stressors; and support immune health and weight management.

O2 Drops® contains one of the highest concentrations of bioavailable oxygen available today. It is produced using a proprietary process that delivers a concentrated boost of dissolved bioavailable oxygen and plant-derived liquid minerals into the bloodstream to help facilitate energy production and support cellular functioning and renewal. The proprietary Activated Stabilized Oxygen® in O2 Drops® has been independently tested and validated for efficacy and safety by more than two dozen laboratories and universities.

This revolutionary bioactive cellular nutrition supplement is 100% natural, easy to use, and safe for people of all ages. Take it as a daily supplement or as needed for an extra immunity or workout boost. O2 Drops® is formulated with the only stablished oxygen technology that's clinically proven to improve recovery post-workout by clearing lactic acid, reducing muscle fatigue, and facilitating cellular repair.

Individual results will vary. Best if taken as part of an overall healthy lifestyle. As with many health supplements, consistent use is key to maximizing the benefits.

O2 Drops®

Oxygen Cellular Nutrition Supplement

ADDITIONAL DETAILS

How to Use O2 Drops®: Follow these guidelines to maximize your results.

- Adjust your dose based on use and the results you experience.
- Recommend taking one of your daily doses at bedtime as the body does most of its repairing while sleeping.
- Can be taken sublingually, orally ingested, or applied topically.
- To take sublingually, place drops under tongue, hold for 30 seconds, then swallow.
- Can be taken full strength or diluted in water. Effective either way.
- For best results, do not eat or drink anything (other than water) or take other supplements or medications 30 minutes before or 1 hour after taking the drops.
- If you take it with a spoon, use a plastic one as metal destabilizes the oxygen making the drops ineffective.
- If you have silver fillings or braces, do not swish the drops around in your mouth.
- Can be used topically. Spray liberally and regularly onto skin as needed.
- Safe for pets. For animals dose at one drop for every five pounds of body weight.

Serving Recommendations Based on Use

Common Uses	Dose	Bottles Needed
Daily General Health	15 drops 2 x per day	1 per month
AM Energy & PM Repair	30 drops AM + 30 drops PM	2 per month
Pre & Post Workout	15 drops Before + 15 drops After	1 per month
Weight Management	30 drops 1 x per day	1 per month

Research, testing, and clinical use have found O2 Drops® may also be useful for the following.

Other Potential Benefits of Using O2 Drops®:
